9:00am - Mountain & Canyon Weather

10:30am - Preparation, En-route Operations, and Navigation

1:00pm - Take-offs, Landings, Go-arounds & More

2:15pm - Human Factors of mid-air collision - Amy Hoover Shares her personal story of how attitude and training helped her to land successfully and facilitate her own rescue after her airplane was disabled in a mid-air collision over a remote area.

Dr. Hoover has over 7000 flight hours, including 3800 hours giving flight instruction. More than 2/3 of that time has been spent in the Idaho backcountry. Hoover has published approximately 30 articles and manuals on mountain and canyon flying and has given more than 150 presentations to various organizations throughout the U.S.

RSVP chosen option to Larry luheat2083@gmail.com or Rod cervelorod@gmail.com
